# Introduction

Did you know that one fifth of children in the U.S can't afford books? That means they can not explore the outer world using their imagination. Reading is good for you because it improves your focus, memory, empathy, and communication skills. The children who do not have any books can not strengthen these skills. For our GMA project we collected and donated books a society called Buis book Foundation that donates books to poor children in need.

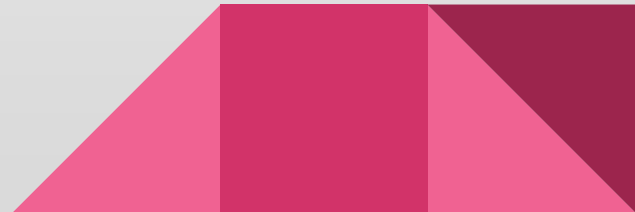

# Who

We donated to poor children in need of books because we thought that it would be a great experience to help kids in the community. We donated to the Buis book foundation which was organized to help schools with kids that could not afford it. Dr. Kirk Buis is the original founder of the Buis book foundation and still continues to organize books for poor schools today.

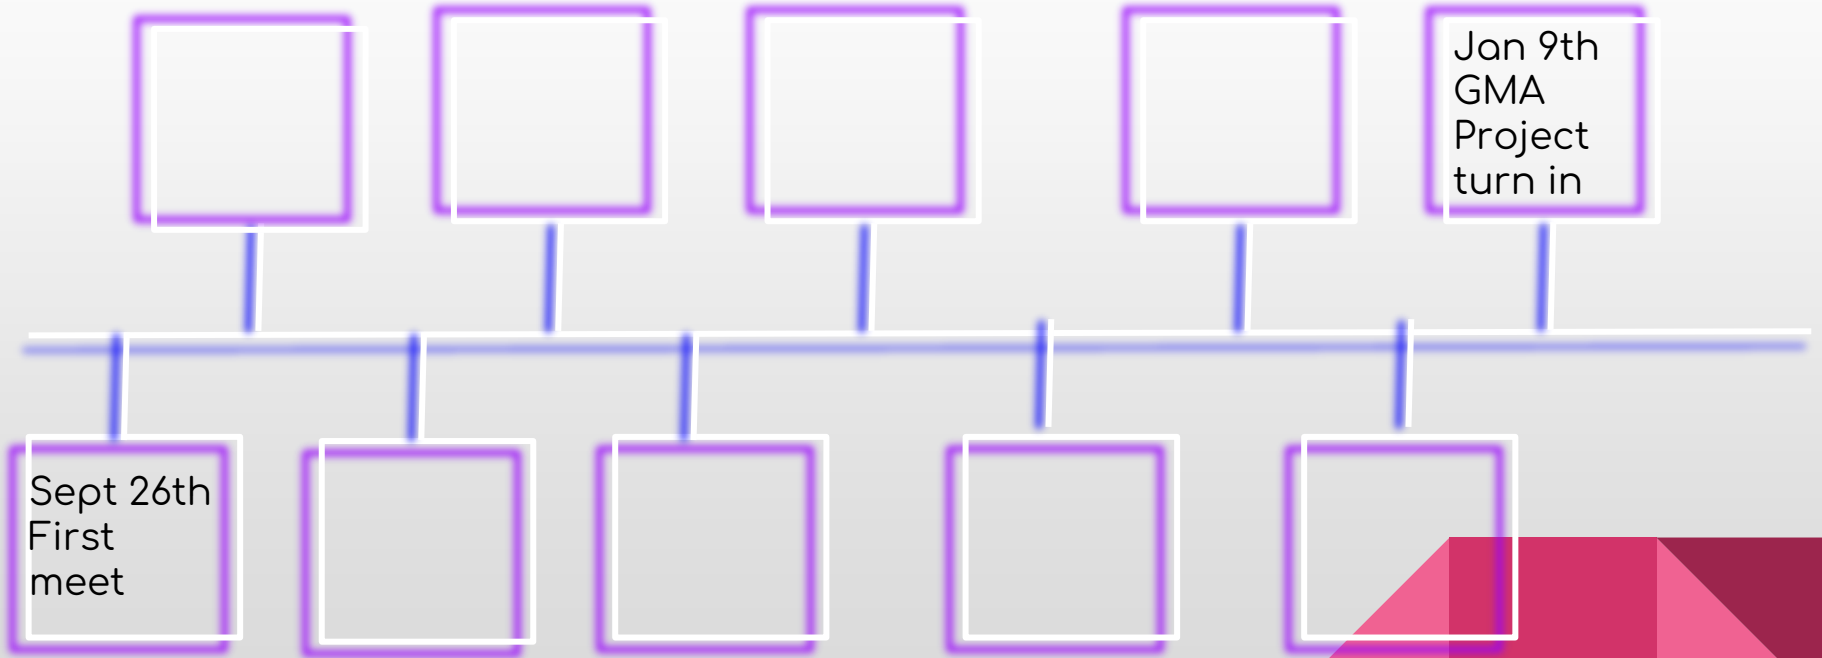

# What

What we did was that we went from house to house asking for old children's books! Our goal was 250 books to donate, and we reached that goal! We also donated crocheted plushies for them to play with.

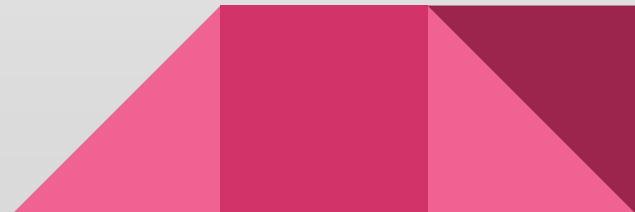

# When

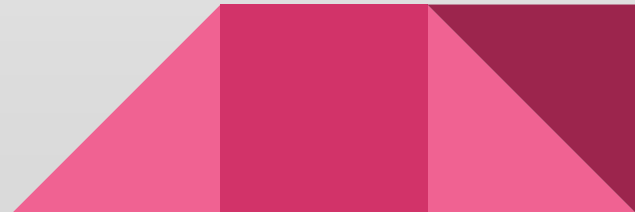

# Where

We donated to a place called the Buis Book Foundation. You can also donate at the Buis book Foundation until May 24 2024.

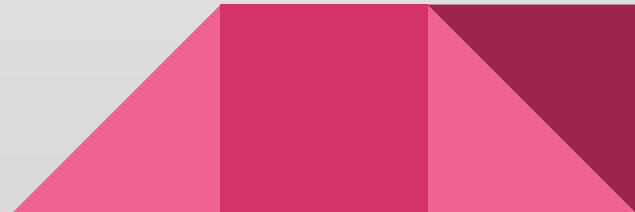

# Why

We donated books because we thought that it would be a nice and good action to do. We thought that it was unfair for others to get books while poor children could not. We also thought that our community should help and focus more about this topic.

# Conclusion

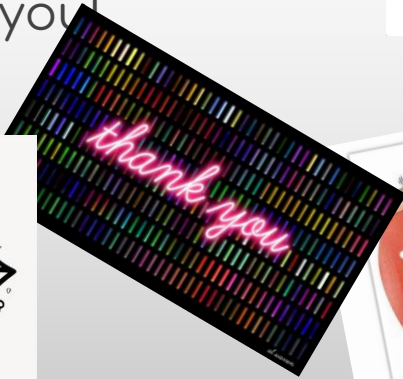

In the end, we donated a total of \_\_\_\_ books and a total of \_\_\_\_ plushies. You should also consider donating old books to the Buis book Foundation instead of throwing away your old children books.
