

GMA (Giving Myself Away) Project

Picking up Trash For The World

(I also only did these on Sundays with my dad)

Hi, my name is Rachel, and I am doing a GMA Project that I didn't really want to do, but was forced to, by my parents. My project will be about picking up trash to make a positive difference, I only have a few slides because my dad says that two days was enough, well, I don't agree with that statement, if we really want to make a difference in the world, we have to do more!

September 17, Peachtree Ridge Park, 4:21 PM

We first started by going to Peachtree Ridge Park, (it was also closest to our home) we could take a walk and pick up trash.

We found lots of various items, including a golf ball. We picked

my older sister and I were not able to get all. We also found a lot of black plastic

up

stuff

September 24, Suwanee Creek Greenway, 4:32 PM

When we made our way to Suwanee Creek Greenway park,
the scenery was beautiful with
water,
though. My dad made a few jokes,
my older sister being mean
all the nasty trash

there.
