

12 Online Math Games for Kids

If you are looking for something different to help your child with math at home, here are 12 additional resources full of math games and math activities:

1. **[MathPickle](#)**. This K-12 resource allows students to engage in problem solving through puzzles. The puzzles are organized by grade and subject, each designed for a 45-60 minute period.
2. **[Math with Georgia Public Broadcasting](#)**. A service of PBS Learning Media, this resource brings K-12 math concepts to life through interactive games, animations, and engaging media resources. Kids can see math in action in various careers, play games, and more. The content is sortable by grade and resource type.
3. **[Math is Fun](#)**. Organized by domains and concepts, these K-12 mathematics games are an engaging and fun way to learn for students of all ages. Content includes games, puzzles, activities, interactive quizzes, practice sheets, and a math-related forum. Domains include numbers, algebra, geometry, data, measurement, money, and calculus.
4. **[PBS Kids](#)**. Cyberchase supports learning of K-2 math concepts and skills through games, videos, and hands on activities. Kids also will enjoy 3D Builder and Shape Quest— free apps from PBS for math practice, geometry, spatial reasoning, and problem solving.
5. **[Figure This!](#)** This math resource for grades 4-8 brings real-life math to family conversations. Instead of practicing math on worksheets, families can work together to investigate real-life math problems on topics like salaries, life expectancy, and fair decisions. Families can [download](#) to view on their device or view online.
6. **[Fun Brain](#)**. Get in the Math Zone with Fun Brain! Kids in grades K-8 can practice mathematics through games, books, comics, and videos that develop skills in operations and problem solving. Games like Math Baseball, Cake Monster, and One False Move will keep kids coming back for more practice and fun!
7. **[Greg Tang](#)**. Math author and educator Greg Tang created this website for K-8 students to practice important math skills through games and activities.
8. **[Math Playground](#)**. Give your brain a workout with this website for students in grades 1-6. The site features math games and logic puzzles. Discover your math superpower, watch videos for step-by-step explanations, and take math video challenges!
9. **[Education Math Games](#)**. These interactive math games will have students (pre-K to 5th grade) playing to win. Sort by grade level and math concept. Mark your favorites so you can play again to beat your high score and watch your knowledge grow!
10. **[Estimation 180](#)**. This K-8 website allows students to practice their estimation skills while working on mathematics concepts. Find 180 different estimation activities to build number sense, one day at a time!
11. **[Sheppard Software](#)**. This educational website has hundreds of free online math games to help kids in grades K-6 practice math in a fun way, with many levels, skills, and types for all ages and all abilities!
12. **[Illuminations](#)**. These K-12 interactive games and activities offer students a dive deep into mathematical concepts. Illuminations also offers mobile options.

We'll be sharing more tips so watch for the next installment of DLD Daily Dozen!
