Testing and Training Information

<https://dds.georgia.gov/testing-and-training/test-and-exams-information>

GA DDS – Testing and Training

GA DDS – ADAP Info

- **What is ADAP?**

ADAP is an acronym that stands for Alcohol and Drug Awareness Program. In Georgia, teens under the age of 18 are required by law show proof that they have completed ADAP in order to obtain their Class D driver's license.

- **Is ADAP the same as driver's education?**

No, but some driver's education programs have incorporated ADAP into their 30-hour driver's education course. ADAP is a 4-hour course that most teens complete during their freshmen year of high school as part of their health, physical education, or ROTC classes.

- **What is the difference between ADAP and eADAP?**

ADAP is taught in a classroom environment, whereas eADAP is offered online. Both, however, will enable teens under the age of 18 to obtain their Georgia driver's license.

- **What if I do not take ADAP?**

You will not be able to obtain a Georgia driver's license until you turn 18. At age 18 you are no longer required to take ADAP or eADAP to obtain a Georgia driver's license.

- **I lost my original ADAP certificate. Can I print a replacement certificate from eADAP?**

Yes, but only if you took the course online through eADAP. If you took ADAP through your school or a make up class, you will need to obtain a replacement certificate from the instructor that taught your ADAP class.

COMMUNITY SCHOOL

DISCOVERY HS COMMUNITY SCHOOL

- **What is eADAP?**

eADAP is the acronym for the Electronic Alcohol and Drug Awareness Program.

- **Can anyone take eADAP and what is a qualifying student?**

Currently, eADAP is only intended for those qualifying teens that are unable to take the traditional classroom ADAP course through their public or private high school. Examples of a qualifying condition are listed below:

- Teens that are home-schooled.
- New students that missed the classroom ADAP course.
- Students that did not pass the classroom ADAP course.
- Students with scheduling conflicts (i.e. band, ROTC, and athletics).
- Students that turn 16 the semester prior to the classroom ADAP course being offered.
- Students enrolled in a GED program.

- **Are there any fees associated with eADAP?**

No. The course is free of charge.

- **How does eADAP work and how do I register?**

Visit the [eADAP Program](#) page for enrollment information.

- **I lost my original eADAP certificate. Can I print a replacement certificate from eADAP?**

Yes. Click on "Print Student Certificate" from the eADAP main menu and enter all the required information as listed on your registration receipt.

If you are unable to print your certificate, send an email to eADAPsupport@dds.ga.gov requesting a copy. Include your phone number, full name, birth date and email address.
