# Environmental Club

## NEWSLETTER

Our goal is to teach students and faculty the importance of reducing our environmental impact as individuals and as a community.

Our Titans have been working hard in the garden this year. They harvested field peas, green beans, okra, tomatoes, squash, watermelon, and green onions.

They ate some, took some home, and we even donated some to the food bank.

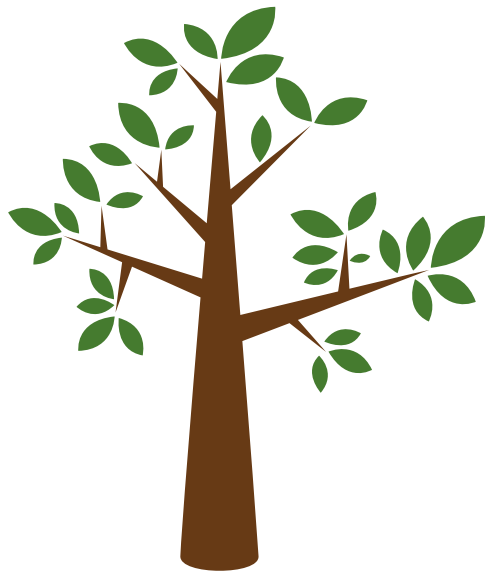

**#TITANS FOR A BETTER WORLD**

## 2019 Yellow River Trash Bash

**41 participants, 4 hours**

**We removed a lot of trash and debris from the watershed, preventing pollution of our Yellow River!**

- 3 pieces of vinyl flooring
- 2 tarps
- 4 boxes of clothes
- 6 grocery carts
- 1 construction helmet
- 1 skate board
- 1 gas tank
- 1 mini fridge
- 45 large bags of trash

# Education for ALL

**Club students want to promote REUSING materials and purchasing REUSED materials.**

## Why should we REUSE?

### Reusing...

- Reduces raw materials needed to create goods.
- Reduces water pollution
- Saves energy
- Reduces waste in landfills
- Reduces greenhouse gas emissions which lead to global warming
- Saves money
