## DECEMBER'S FOCUS

### Social Awareness

Social awareness is the ability to understand and empathize with others, particularly with people from different backgrounds than one's own. Social awareness is an important skill for students to develop in order to build positive relationships and make responsible decisions. We can all practice social awareness by; pay attention to facial gestures and body language, repeat what is said, pay attention to tone of voice, and notice details.

## ATTENDANCE

If your child must miss school, please send an excuse note with the date, reason for absence and your signature. In the state of Georgia, a student is considered truant if they have 10 unexcused absences.
