

Lanier High School CDAT 9

Center for Design and Technology

2024-25

What is CDAT 9?

CDAT 9 offers Lanier High School 9th grade students a unique scheduling approach designed to support more active and STEM-focused learning. In addition, CDAT students can participate in AP Capstone beginning in the 10th grade. Please go to our website: www.LanierCDAT.org for more information.

How does the CDAT 9 schedule work?

CDAT 9 students are grouped together for 9th grade language arts, science, a technology elective*, and Longhorn Time. This unique schedule allows for more hand-on, experiential learning and cross-curricular projects.

*Students enrolled in CDAT 9 will be able to choose between *Introduction to Software Technology* and *Foundations of Engineering* at the start of the school year. Students who choose *Introduction to Software Technology* will have the opportunity to complete *AP Computer Science Principles* as an additional elective during their 9th grade year.

How do I join?

On the CDAT website (www.LanierCDAT.org), you will see a link labeled **Rising 9th Graders (Class of 2028!) click here for info about CDAT**. After you review the information provided, select the link labeled **Click here to choose CDAT 9**. Fill out the form in its entirety and submit.

Do you have additional questions or need more information about CDAT 9?

See our CDAT website (WWW.LanierCDAT.org) for lots of information about CDAT 9 and the rest of our CDAT programs.

Please email Molly Stiltner molly.stiltner@gcpsk12.org for assistance or with any additional questions about CDAT 9 or other registration issues.
