

# Brookwood Science Olympiad Wins State Championship, Retains Title Since 2011

In the most dominant win in Brookwood High School's history, Brookwood students earned recognition in all 23 events at the Science Olympiad State Championship, this year held at Emory University on March 31. Six first-place finishes tied a school record, and eight second-place finishes contributed immensely to the overall win. Brookwood's team score was 70, which was 43 points better than second-place Chattahoochee and 72 points better than third place GSMST. (Team scores are determined by adding the places in all 23 events; the lowest score wins.)

The competition featured the 24 best teams throughout all of Georgia, including schools such as GSMST, Chattahoochee, Milton, Johns Creek, Walton and Parkview high schools.

Brookwood will represent Georgia in the National Science Olympiad Championship at Colorado State University on May 18-19, 2018.
